# 🛠️ Tips & Tricks: Enabling Pop-Ups for the SAGTA Map Downloader

When you've selected your map area, set up the page layout (A3/A4), scale, title, and output format, and then click **Print.** The file should download automatically. If nothing happens, it usually means your browser has blocked the pop-up. Follow the steps below to enable pop-ups and complete your download:

1. Notice the Blocked Pop-Up 🚫

After clicking **Print**, if no download starts and you see nothing new, look for a **pop-up blocked icon in your browser's toolbar or address bar**.

2. Chrome: Allow Pop-Ups for maps.sagta.org.za 🦊 ➡️ 🌐

1. Click the pop-up blocked icon (❌🔒) at the right end of the address bar.
2. In the menu that appears, select **Always allow pop-ups and redirects** for
   https://maps.sagta.org.za/.
3. Click **Done**.
4. Click **Print** again—your file should now download automatically (or open in a new tab).

   Insert screenshot of Chrome's "Always allow pop-ups" menu here

3. Firefox: Enable Pop-Ups for maps.sagta.org.za 🦊 ➡️ 🌍

1. Click the shield or pop-up blocked icon (🚫) in the left side of the address bar.
2. Choose **Allow pop-ups for maps.sagta.org.za**.

3. A confirmation badge will appear—refresh the page if needed.

4. Click **Print** again to trigger the download.

4. Download & Save Your Map 💾

1. Once pop-ups are enabled, clicking **Print** will open a new tab or window with your map.

2. Click the **Download** or **Save** button in the new tab.

3. Choose a folder on your computer and click **Save**.

✨ **You're all set!** Your map will now download automatically whenever you print!
